

S-E-C-R-E-T

DIRECTORATE OF SCIENCE AND TECHNOLOGY

GENERAL NOTICE NO. 21

30 September 1964

DD/S&T General Notice No. 8, dated 25 February 1964, pertained to a procedure by which the Defense Documentation Center agreed to provide to the Agency classified and unclassified information from Research, Development, Test and Evaluation files. This procedure has been employed successfully by several members of the Directorate and has been extremely valuable to the user.

Of equal benefit will be another arrangement which we have recently established with DoD to provide the Agency with access to DoD Centers for Analysis of Scientific and Technical Information. DoD Instruction 5100.45, Section III, B, describes in detail the location of these centers throughout the United States and also elaborates on the type of information they contain. A copy of this instruction is available with the Administrative Staff, DD/S&T.

The CIA Library has been designated as the channel for the Agency through which requests for the service from the centers will be routed. Requests should be addressed to the CIA Library and routed through the Administrative Staff, DD/S&T.
